副本:總公司 廖毓銘 Joy.liao <joy.liao@tahoho.com.tw>

古SIR 您好

依前封MAIL說明已於6廠E2C 防火牆設置相關設定，設定統一原則如下：

新增1 Cloud Scada2目的(cloudscada.myvecid.net)，MQTT port除了8883之外新增443。

以上說明，可以的話請再協助複驗了，謝謝。

Subject: 添加防火牆策略

俊霖，您好！

请在有空的时候，在6个E2C IT防火牆上添加以下内容，它可以合并到之前的to cloudSCADA策略中。

IT组件 -> cloudscada.myvecid.net, 端口是443

也就是我们希望添加一个策略，允许IT组件访问域名为 cloudscada.myvecid.net的服务器，端口是443，它们将作为传输硬盘空间，内存可用数据的备用通道。以便如下报表正常工作。

Best Regards ,
